FoodieHelp Rider Safety and Delivery Terms

Document ID: POL-SAF-008 | Version 1.2 | Effective Date: January 1, 2026

1. Rider Safety in Adverse Weather

FoodieHelp prioritizes the physical safety of our delivery fleet. During hazardous weather events, including waterlogged streets, flash floods, dense fog, or violent thunder storms, delivery radii are temporarily shrunk and delivery speed expectations are relaxed. Delivery partners are instructed not to cross unsafe roads.

2. Customer Code of Conduct

FoodieHelp maintains zero tolerance towards abusive behavior, verbal harassment, or physical threats directed at delivery partners. Customers must meet the delivery partner at the verified door or building security gate. Failure to respect rider safety may result in immediate account suspension.
